

Garrett Molle

molle_g@yahoo.com | github.com/gmolle | 440-653-7569 | Columbus, OH

Education

Western Governors University – Bachelor of Science in Computer Science

Graduation Expected Dec 2025

Experience

Production Operator, Abbott Nutrition – Columbus, OH

June 2024 – Feb 2025

- Operated and monitored packaging equipment to maintain optimal performance and meet production schedules
- Inspected packaging materials and products to ensure compliance with FDA and company standards
- Maintained accurate production logs and performed data entry to track inventory levels, downtime, and output
- Followed all safety and sanitation protocols in a regulated manufacturing environment

Junior Software Engineer, TEKsystems – Remote

May 2022 – Apr 2023

- Developed a feature-rich full-stack ecommerce web application using React, JavaScript, Java and Spring Boot
- Implemented Test-Driven development practices for front and back end components, ensuring quality and reliability
- Crafted thorough integration and unit tests to comprehensively assess the functionality of the web app and services
- Utilized SQL databases for efficient data storage, integrating them with the front and back end via Spring Boot
- Developed an app using Power Apps and Power Automate to streamline employee registration for internal courses, improving efficiency and simplifying the process

Software Engineer Intern, TEKsystems – Remote

Jan 2022 – Apr 2022

- Developed multiple applications within a three-month timeframe, covering front end, back end and full stack
- Utilized a variety of languages, frameworks and libraries to enhance the versatility and functionality of applications
- Proactively learned and incorporated new technologies to continually improve personal development skills
- Contributed to an agile team, actively participating in and adhering to best agile practices for collaboration
- Successfully developed a full stack ecommerce web app, collaborating with an agile team to ensure success

Front End Developer Intern, Minority Programmers Association – Remote

June 2021 – Sept 2021

- Translated design wireframes into functional applications, ensuring a seamless development process
- Collaborated with development team to implement innovative features that enhanced the UI/UX
- Established integration with our backend API for accurate data retrieval and display per wireframe specifications
- Participated in three weekly standup meetings to stay aligned with team goals and ensure effective communication

Projects

Collaboration Board

[View Project](#) [View Code](#)

- Developed a web app using React and Next.js for user engagement and collaboration using customizable boards
- Enabled users to express their creativity by allowed them to draw, type, and add shapes to the boards
- Implemented real-time updates, allowing users to track and view changes instantly for efficient collaboration

Sorting Visualizer

[View Project](#) [View Code](#)

- Designed and developed a sorting visualizer web app using React and Redux
- Implemented real-time visualizations for merge, bubble, quick, insertion, and selection sort algorithms

Technical Skills

Front End: HTML, CSS, JavaScript, React, Redux, TypeScript, Tailwind, Bootstrap, Sass, Next.js

Back End: Java, Spring, Spring Boot, Node.js, Express

Other: Git, SQL, AWS, NPM
